HOW AN OUT-OF-STATE PESTICIDE APPLICATOR CAN BECOME LICENSED IN UTAH

Utah Department of Agriculture and Food (UDAF) currently have reciprocal certification agreements with five states: Idaho, Colorado, Montana, Washington and Wyoming, as well as United States Department of Defense (DOD) and the Bureau of Land Management (BLM).

This agreement allows individuals holding a Commercial pesticide license from the state in which they reside to be granted a Utah Commercial Pesticide Applicators License in corresponding categories. The expiration date will remain the same as the currently held home state, DOD, or BLM license. To apply for a Utah license, individuals must comply with the following:

1. Complete Utah Pesticide applications available on our website, listed above
 - a.) Application to apply pesticides (individual applicator)
 - b.) Pesticide Business Application (If business does not have a current license)
2. Submit the appropriate fee *
3. Supply a copy of their current home state, DOD, or BLM pesticide license
4. Supply a LEGIBLE copy of government issued photo identification by fax, or email.
5. Request a Letter of Good Standing from the home state, DOD, or BLM licensing department sent to UDAF

*The appropriate licensing fee is twenty dollars for processing, plus thirty five dollars for each year the current home license is valid, up to two years. If the applicant has a home license, DOD, or BLM license that is valid for 3 years, the licensing fee will be \$65.00. The Business license fee is \$75 for 1-4 commercial applicators, \$150 5-9 commercial applicators, \$300 with 10, or more commercial applicators

UDAF reserves the right to require examination of individuals for just-cause or if comparable license categories do not exist between the two states. Call 801-538-7185 for further information or questions.
